Experience

2015 **New Wave** - *Front End Developer*

Developed and hand coded websites and games for national brands like Nickelodeon, Fox, Paramount, and Netflix.

Responsibilities:

- Turning PSD layer comps into pixel perfect web sites in a fast paced advertising environment on tight deadlines.
- Fully responsive sites for desktop, tablet, and mobile.
- Developed javascript-based mobile games.

2014 **RPA Advertising** - *Front End Developer*

Worked primarily on heavily interactive, responsive, digital ebrochure's for Honda's line of automobiles including the Civic, the Civic Natural Gas, and the Fit. Also spent time updating web Sales Training tools for the Honda sales force.

Responsibilities:

- Turning PSD layer comps into pixel perfect web sites.
- Fully responsive web sites that work cross browser and cross platform that degrade gracefully.
- Working as part of a team with QA and Project Management to release progressive iterations in a timely and efficient manner.

2013 **iD Tech Camps** - *Instructor*

Worked as an instructor teaching highschool aged kids HTML 5, CSS3, and basic Javascript/jQuery at a prestigious summer camp at UCLA.

Responsibilities:

- Designing and implementing a curriculum based on the tenets of standard web design practices to children most who had never coded anything before.
- Worked as part of a team of instructors with the goal of creating a productive and creative environment for the children to learn while having fun.

2012 **Market Fresh Grill** - *Designer*

Designed and implemented a digital animated menu for a national chain of casual dining asian restaurants using Flash CS5, and the greensocks animation framework.

Responsibilities:

- Creating initial wireframes in Photoshop for approval.
- Developing a prototype and usability testing.
- Creating a fully working version, and several revisions based on customer feedback.
