EXPERIENCE

Creative Impact Agency — 8/2017 to Current

Front End Developer

Developed responsive "For Your Consideration" websites for Disney Studios, Marvel Studios, Dreamworks, and Focus Features

Upgraded and customized a custom PHP/mySQL admin panel that acted as an API to deliver screening information.

Developed a Node.js/Express server to serve an embeddable widget that allowed users to add a branded overlay onto video and photos and then post to their Twitter and Facebook.

Tech: HTML5, LESS, JavaScript, jQuery, Git, Gulp, AWS, Node, PHP, mySQL

Equate Media — 9/2016 to 8/2017

Front End Developer

Developed responsive, mobile first landing pages for several brands of a lead generation company using HTML, CSS, and Javascript from Sketch files that interfaced with several in-house RESTful APIs.

Converted some existing lead generating sites done in jQuery into React.

Developed an SPA in React/Redux for users to create a list of all their furniture to provide to moving companies to get a more accurate moving quote.

Tech: HTML5, LESS/SASS, JavaScript, jQuery, REST API, React, Redux,

NWE — 07/2014 to 9/2015

Front End Developer

Worked in small teams to develop highly interactive, responsive. co-branded sites for Nickelodeon and Dreamworks that worked across all devices featuring simple games and puzzles for children.

Developed a Shorty Award nominated site for Fox Home Entertainment for the 24 series that tied into a buzzy social media campaign.
